

PRESS RELEASE 1.7.2015

Plenary meeting of the GSEE Administration

The GSEE Plenary convened today, Wednesday 1 July 2015, to state its position on the dramatic developments in our country.

GSEE believes that holding of a referendum is a democratic, constitutional and inalienable right of Greek citizens within the context of European traditions.

However, the present referendum process itself, its timing, its quality and content are being trivialized within a framework of “false” dilemmas” and “time asphyxiation”, which could lead to uncontrollable situations and divide Greek society.

The Confederation unnegotably opposes all kinds of memoranda and all their implications at the expense of the world of work and the Greek people, whether these memoranda come from the creditors or the Government.

Equally non negotiable is our position for the continuation of European orientation of our country, and the place of Greece in Europe and the eurozone.

**The question posed by the referendum is SPURIOUS and DIVISIVE
RECKLESS CHOICES BY EXTREME FORCES INSIDE AND OUTSIDE GREECE ARE
DRIVING OUR COUNTRY TO TRAGIC ADVENTURES.**

WE DEMAND HERE AND NOW THE WITHDRAWAL OF THE REFERENDUM.

As the central trade union organization of private sector workers, we send a clear message in every direction:

- **OUR COUNTRY'S EUROPEAN ORIENTATION IS NON NEGOTIABLE**
 - **WE SAY YES TO EUROPE OF THE PEOPLE AND SOLIDARITY!**
 - **WE SAY YES TO OUR COMMON CURRENCY AND TO A FEDERAL EUROPE!**
